## NCFO Science Festival Chorus 2021

---

David Bass <david@familyopera.org>

Thu, Feb 11, 2021 at 9:58 PM

Hi Family Opera community - The Cambridge Science Festival is starting back up and will be going on, virtually, during the entire month of April 2021. In this spirit, NCFO will assemble an equally virtual chorus to rehearse and record selected songs, many from our 2020 program that never happened about the senses, *2020 Vision: I See What You Did There* (scroll down near the bottom of the page for demos of the songs).

Our resurrected program will now be called: *2021 Vision: We Should Have Seen This Coming*.

Virtual rehearsals will be Thursday evenings, beginning February 18, from 6:00 to 7:30, with extra Zoom time scheduled for socializing and community building a half hour before and after the rehearsal. Everyone is welcome. Tell your friends! (Our experience is the Science Chorus is best for adults and kids age 6 and up.) Your music director will be me.

If you would like to be part of our Science Festival Chorus, please reply to this email. We'll send you more information and Zoom links.

Words cannot express how much I look forward to seeing you there.

David
