Hi everybody, here are some notes about our upcoming Thursday Science Chorus Rehearsal (5:30 socializing, 6 to 7:30 singing, 7:30 more socializing :-).

### REMINDERS:

Zoom link: <https://zoom.us/j/93352616178?pwd=dmEvK1BZb09iUTE0dWp6dG50NVh1UT09>

Resource page: [http://www.familyopera.org/drupal/2020\\_Vision\\_Practice\\_Page](http://www.familyopera.org/drupal/2020_Vision_Practice_Page)

(you can also access the Resource Page from FamilyOpera.org under "Content Menu" on the top left)

### THIS WEEK:

- We'll start with some warmups
- We'll then sing through "Cataracts" ( [sheet music](#) / [demo](#) ), which we learned last week.
- Then we'll start on our project of singing through all of the songs we've learned this season (we'll sing through them in the order they're listed on the website, which is roughly alphabetical). We probably won't get through all of them this week.
- We'll spend the rest of the time that we have talking about various topics that you all might be interested in, including:
  - potential themes for future Science Choruses
  - the future of live singing (rehearsing and performing)
  - our upcoming 2021-2022 season and what is realistic to plan for
  - other topics you all might think of!

We'll probably schedule one more rehearsal, just to have an opportunity both to finish up our singing, as well as to engage in more discussions and socializing.

Thank you all for a wonderful season, and see you all on Thursday--David and Sue
